Customer contact

When you exhibit at Coiltech®

When you exhibit at other trade fairs

Compare other trade fairs you are interested in with our performance package

+ An exhibition from humans for humans

A **designated contact person** at the organiser for all the organisational matters.

Numerous **networking opportunities** at no extra cost

Exhibition to compare with

+ Why your customers like to visit the show

Proximity to their production sites counts for more than a venue in a hoity-toity city

Easy accessibility by **car** and **train** for **domestic** visitors, excellent **flight** connections for the **international** audience

Expert conference under scientific supervision with more presentations than at other fairs

innovation@coiltech
A directory of exhibitors with **patents** facilitates to find hidden champions

Exhibition to compare with

+ Exhibition 4.0

Completely **digitalised booking process** - 5 minutes suffice to book a booth

Exhibitors choose the position of their stand themselves in the online floor plan

Exhibitors find and activate **online all the trades** they require for their participation in the **MyQUiCKFairs** account

Interactive, comprehensive checklist: everything you need to think about at a glance and with just a few clicks

With the **Interactive Booth Designer**, you determine exactly where the objects are to be mounted in the booth.

Exhibition to compare with

+ Benefit-cost-relationship

A trade fair concept that aims to keep the **expenses** for exhibitors **as low as possible**

Exhibitors find the **entire participation costs** in a few moments per **simple mouse-over** in the interactive floor plan

A format designed to showcase companies with **small stand sizes** in a **big way** as well

Turnkey stands - **less effort** for preparation, **more time** for meetings with customers and prospects

Sustainable trade fair concept: the reuse of standardised stand components reduces the carbon footprint

UFI* approved international event. Certified trade fair statistics since 2012.
